CONTENTS

PART I. JULY

PAGE

Genetic Research in Britain, 1939-1945, a summary by various workers . . 1

A Bibliography of genetic research published in Italy and Germany, 1939-1945, by A. BUZZATI-TRAVERSO (Verbania Pallanza) 19

DOBZHANSKY, TH. (New York). A directional change in the genetic constitution of a natural population of *Drosophila pseudoobscura* . . . 53

WINGE, Ø., and DITLEVSEN, E. (Copenhagen). Colour inheritance and sex determination in *Lebistes* 65

LEWIS, D. (Merton). Competition and dominance of incompatibility alleles in diploid pollen 85

FRANKEL, O. H. (Christchurch). The theory of plant breeding for yield . 109

HARLAND, S. C. (Lima, Peru). An alteration in gene frequency in *Ricinus communis* L. due to climatic conditions 121

CAVALLI, L. L., and MAGNI, G. (Pallanza and Milano). Methods of analysing the virulence of bacteria and viruses for genetical purposes . 127

FALCONER, D. S. (Cambridge). Linkage of rex with shaker-2 in the house-mouse 133

WRIGHT, M. E. (Cambridge). Undulated: a new genetic factor in *Mus musculus* affecting the spine and tail 137

PART II. OCTOBER

FISHER, R. A. (Cambridge), and FORD, E. B. (Oxford). The spread of a gene in natural conditions in a colony of the moth *Panaxia dominula* L. . . 143

MATHER, K. (Merton). Species crosses in *Antirrhinum*. I. Genetic isolation of the species *majus*, *glutinosum* and *orontium* 175

DARLINGTON, C. D. (Merton), and KOLLER, P. C. (London). The chemical breakage of chromosomes 187

BOYCE, S. W., COPP, L. G. L., and FRANKEL, O. H. (Christchurch). The effects of selection for yield in wheat 223

BATEMAN, A. J. (Merton). Contamination of seed crops. II. Wind pollination 235

MCAULAY, A. L., and FORD, J. M. (Hobart). Saltant production in the fungus *Chætomium globosum* by ultra-violet light, and its relation to absorption processes 247

PART III. DECEMBER

PAGE

KEMP, T. (Copenhagen). Hereditary malformations in man . . . 259

DARLINGTON, C. D. (Merton). The genetic component of language . . 269

YATES, F. (Rothamsted). The analysis of data from all possible reciprocal crosses between a set of parental lines 287

BATEMAN, A. J. (Merton). The contamination of seed crops. III. Relation with isolation distance 303

REVELL, S. H. (Merton). Controlled X-segregation at meiosis in *Tegenaria* 337

WRIGHT, M. E. (Cambridge). Two sex-linkages in the house mouse with unusual recombination values 349

FISHER, R. A., LYON, M. F., and OWEN, A. R. G. (Cambridge). The sex chromosome in the house mouse 355

CARTER, T. C. (Cambridge). A new linkage in the house mouse : undulated and agouti 367

LEWIS, D. (Merton). The organisation of plant breeding and genetics in Sweden 373

STAUDT, G. (Berlin). A bibliography of genetic research published in Germany, 1942-1944 379

MATHER, K. (Merton). Review of Altenburg's Genetics 389

GENETICAL SOCIETY OF GREAT BRITAIN : Abstracts of Papers . . . 393

INDEX 395
